Project title: 3D6B, Community Design Environment
Launch software: Flash animation plays as environment
loads. Screen provides options to obtain more
information about environment.

"Lobby" section of 3D environment. Selecting on top of
item will take you to the archive. Selecting the center to
the Gallery. Selecting the bottom to the sketching tool.

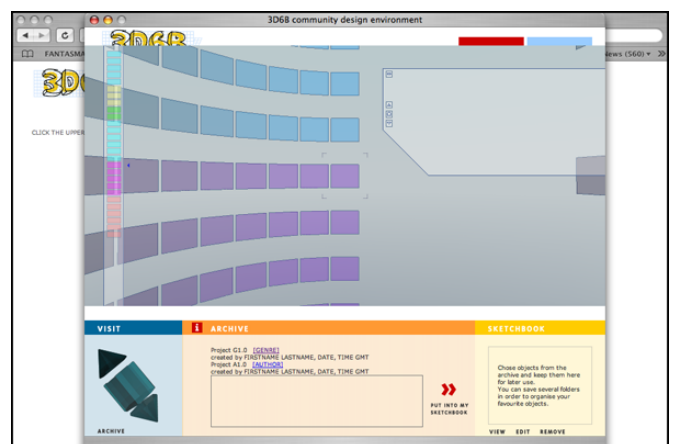

3D sketching tool: Designer can create quick
3D sketches and share them with other designers.

Gallery: Designer can display selected sketches in
a dynamic 3D gallery space.

Garden of "genre trees." Each genre is represented
by a tree/book, such as for example, Fashion.
A page in the book is a work in progress.
Nodes in the page represent version of each work.

Archive, or directory of works. Sketches are stored
by the name of author.

Students: Jaakko Latikka, Simona Schimanovich, Tuomas Siitonen, Akio Wada, Shang Zhidi
